<b>Announcement Content</b>	
<b>Explanations</b>	

In line with our growth strategy in the field of technical textiles and advanced materials, it was announced to the public that our Company decided to start investing in a technical yarn facility with an annual capacity of 7 thousand tons in 2022.

In this context, 3 production lines with a capacity of 4 thousand tons/year have been successfully commissioned as the 1st phase of the investment and commercial sales have started. In addition, our R&D and product development efforts to expand our product portfolio in line with customer demands and market needs are ongoing, and samples for the commercial use of new products are actively carried out with our strategic business partners and potential customers.

Within the scope of the 2nd phase of the investment, 2 more lines are planned to be commissioned by the end of 2025.

It is submitted for the information of the public.

Sincerely,

The Material Disclosure Announcement has been prepared in Turkish and in English. In case of any discrepancy between the two versions, the Turkish version will prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
