Announcement Content	
Explanations	

Our company announced to the public that, in line with our growth strategy in the field of technical textiles and advanced materials, it had decided to commence investment in a technical yarn facility with an annual capacity of 7,000 tonnes in 2022. Within the scope of this investment, the first phase, consisting of three production lines with a capacity of 4,000 tonnes/year, was successfully commissioned in the first half of 2025, and commercial sales commenced.

The additional two production lines planned for the second phase have also been completed and commissioned, reaching the plant's total installed capacity.

Submitted to the public information.

Yours Respectfully,

Material Disclosure Announcement has been prepared in Turkish and in English. In case of any discrepancy between the two versions, Turkish disclosure will prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
