Announcement Content	
Explanations	

In line with our Company's growth strategy in the field of advanced materials, Aksa Tunisie Aéronautique has been incorporated in Tunisia as part of the investment planned by our 54%-owned subsidiary, Aksa İleri Kompozit Teknolojileri ve Havacılık Sanayi A.Ş. ("Aksa Kompozit"), for the production of advanced composite parts for the aerospace industry. The investment, amounting to approximately USD 5 million, is planned to include the establishment of a 3,000 m² enclosed production area, with the facility expected to commence operations in 2028.

Through this investment, Aksa Kompozit aims to expand its international manufacturing infrastructure and strengthen its position in the global aerospace supply chain.

Submitted to the public information.

Yours Respectfully,

Material Disclosure Announcement has been prepared in Turkish and in English. In case of any discrepancy between the two versions, Turkish disclosure will prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
